

The NDTi annual two day conference was held in Bristol at the Royal Marriott Hotel on 18th and 19th November 2009. The theme this year was "Inclusion"

The agenda featured five main themes

- Community and organisational leadership
- Person centred approaches to public services
- Jobs and paid work
- Housing and home
- Transition and life chances

The event was supported by

- Equality and Human Rights Commission
- Joseph Rowntree Foundation
- National Mental Health Development Unit
- Society Guardian

Centrevents worked in partnership with the NDTi from the outset; we found a venue appropriate to the requirements of the programme, accessibility needs and the budget. We handled the marketing of the event to make sure the event was fully attended from the desired audience. Centrevents delivered the event on budget and handled the invoicing, invoice chasing and banking details of the conference. We worked with the NDTi to host and manage on the day, an efficiently delivered and well evaluated two day conference.

"Thank you so much Liz, Geoff and Matt for all the hard work in bringing the conference together and running it so professionally and also in such a welcoming and caring way. You really are a fantastic team to work with, you had my questions answered before I even asked them."

Alison Macadam Development and Business Manager, NDTi
